

## Charles Darwin Ceremonial Dart

1. Begin with the A4 page orientated horizontally and the Charles Darwin heads facing up, at left.

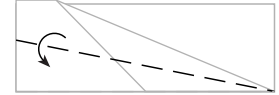

Fold the A4 in half lengthways. The Charles Darwin heads will now be hidden.

2. Fold the top-right corner diagonally so the right-edge of the paper meets the bottom-edge (created in step 1).

3. Fold the top-right corner again so the previous fold (created in step 2) meets the bottom-edge.

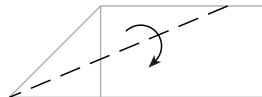

4. Make yet another fold so the previous fold (created in step 3) meets the bottom-edge.

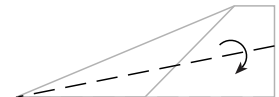

5. Flip the folded page horizontally.

6. Fold the top-left corner diagonally so the left-edge of the paper meets the bottom-edge (created in step 1).

7. Fold the top-left corner again so the previous fold (created in step 6) meets the bottom-edge.

8. Make yet another fold so the previous fold (created in step 7) meets the bottom-edge.

9. Turn the dart and open out the wings on either side. A Charles Darwin head should appear on top.

You're done.
