

# SENSE AND SANITATION

ISSUE ONE, VOL ONE, 2007

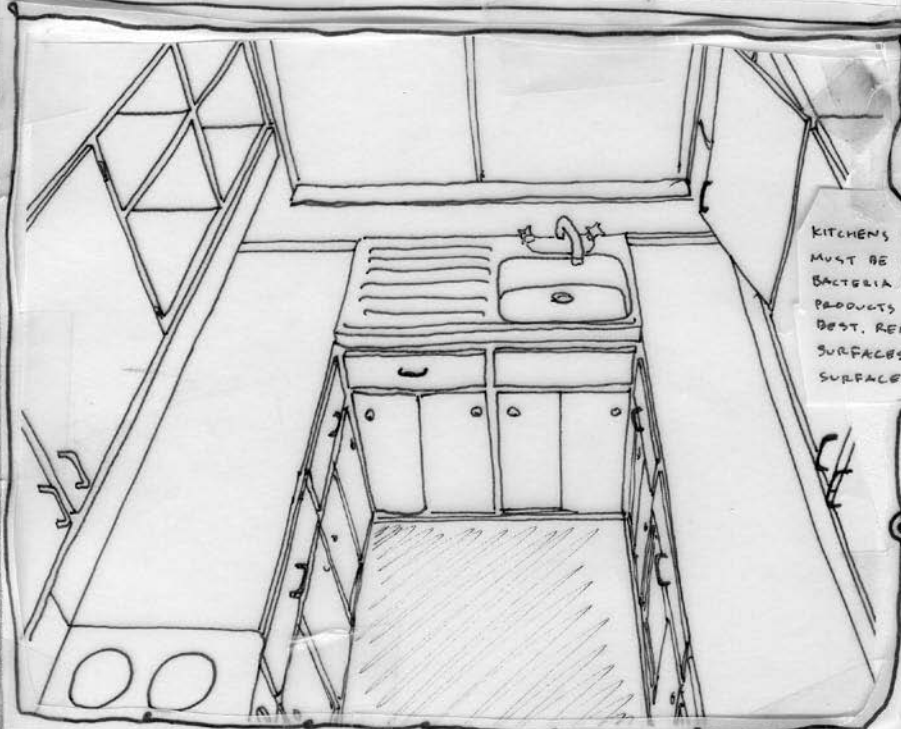

ALTHOUGH COMFORTABLE FOR RESTING, READING AND SEWING SPORTS ON THE BOX, IT IS SERIOUSLY BOTHERSOME THAT SO FEW LOUNGING CHAIRS ARE AVAILABLE IN WIPABLE FABRICS. SOFT, POROUS FABRIC IS GOOD BREEDING GROUND FOR MICROSCOPIC ORGANISMS.

ROLLING SWOT IN THE PALM OF ONE'S HAND IS NASTY. MAKE SURE YOU WASH YOUR HANDS AND SCRUB UNDER YOUR FINGER NAILS ONCE FINISHED. THIS IS A POOR HABIT AND REALLY NEEDS TO BE STOPPED.

FOR GOD'S SAKE, IT'S REALLY VERY IMPORTANT THAT YOU USE A STRONG CLEANING AGENT TO WIP AROUND POWER PLUGS AND LIGHTSWITCHES. THESE ARE MORE OFTEN THAN NOT OVERLOOKED WHEN THE CLEANING IS DONE. IT'S REALLY ASTONISHING HOW MUCH BACTERIA CAN BE FOUND ON AND AROUND THESE OBJECTS / SITES. CARE IS CERTAINLY NEEDED IN THIS AREA IF WE ARE GOING TO MAKE IT.

KITCHENS ARE USED FOR FOOD PREPARATION AND SO MUST BE KEPT CLEAN OF VERMIN, BUGS AND BACTERIA AT ALL TIMES. STRONG CLEANING PRODUCTS AND A SYSTEMATIC REGIME WORK BEST. REMEMBER, IT IS NOT JUST WORKING SURFACES THAT NEED ATTENTION, VERTICAL SURFACES ARE FILTHY HOTBEDS.

PILLY OR FLAT, IT'S SIMPLY IMPORTANT TO PUT THE SCREW CAP BACK ON ALL BOTTLES INCREDIBLY SECURELY, I CAN'T STRESS THIS ENOUGH.
